Building Inspector: \_\_\_\_\_

## **REQUIRED BUILDING INSPECTIONS**

It is the duty of the building permit holder or their duly authorized agent to notify the building inspector when work is ready for inspection. The permit holder must provide access to and means for inspections that are required by ICC code.

Work shall not proceed beyond the point indicated in each successive inspection without first obtaining the approval of the building inspector. Any portions that do not comply shall be corrected and such portion shall not be covered or concealed until authorized by the building inspector.

## **Inspector Sign-off**

## **Required / Date/ Signature**

- **Rough-in Mechanical**: Made when all ducting and other components to be concealed are completed and sealed, and insulation of ducks in non-conditioned area prior to covering.
- Gas Piping: Made when gas piping has been installed and approved prior to connection by utility company.
- Gas Appliances: When gas appliances are set, venting installed and gas piping has been tested and approved.
- □ \_\_\_\_\_Insulation: If adding new.
- **Sheet rock fire-resistive rated and shear assemblies**: Inspected when the sheetrock is in place prior to taping and finishing.
- **Final Inspection**: Installation completed.
